A small guide to a helpful reminder

FOR PARENTS AND TEACHERS | K-6 REFERENCE PACKS

Choose one useful sheet

Start with the idea the student is working on today. Grade bands are suggestions, not limits. A familiar reference from an earlier grade can still help.

Look at an example together

Point to one heading and read its worked example. Ask the student to explain the first step in their own words. You can model a step before asking them to try.

Try one similar question

Use a small amount of practice. Let the student look back at the sheet instead of trying to remember everything at once. A drawing, objects, or a number line can help too.

Check, then choose the next step

Compare the work with the reminder. Talk about which step helped. Keep the sheet nearby, or revisit it another day. Follow the teacher's directions about references during assessments.

Print only what you need

The first page of each pack is this guide. The remaining pages are one-page references selected for that grade. Use the PDF print dialog to choose individual pages. Print at 100% on US Letter, or Fit on A4.

OPP

Numbers 0-20

QUICK REFERENCE | Suggested grades K-1 | Math

Say it. Find it. Count one object for each number.

Number names

0 zero	1 one	2 two
3 three	4 four	5 five
6 six	7 seven	8 eight
9 nine	10 ten	11 eleven
12 twelve	13 thirteen	14 fourteen
15 fifteen	16 sixteen	17 seventeen
18 eighteen	19 nineteen	20 twenty

Count in order

0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10

11, 12, 13, 14, 15, 16, 17, 18, 19, 20

One more / one less

One more than 8 is 9. One less than 8 is 7.

Compare two groups

More means a larger amount. Fewer means a smaller amount.

The same number means equal. Match objects one to one to compare.

OPP

Place value

QUICK REFERENCE | Suggested grades 1-4 | Math

A digit gets its value from its place in a number.

Read 4,582

Thousands	Hundreds	Tens	Ones
4	5	8	2
4,000	500	80	2

Three ways to write it

Standard: 4,582

Expanded: 4,000 + 500 + 80 + 2

Word form: four thousand five hundred eighty-two

Trade without changing the value

10 ones = 1 ten. 10 tens = 1 hundred.

10 hundreds = 1 thousand.

Compare whole numbers

Start at the left. Compare the first place with different digits.

4,582 > 4,528 because 8 tens is more than 2 tens.

Round a whole number

Find the place. Look one place to its right.

0-4: keep the digit. 5-9: add 1 to the digit.

Change all digits to the right to zero. Example: 4,582 to the nearest hundred is 4,600.

OPP

Addition & subtraction

QUICK REFERENCE | Suggested grades K-2 | Math

Addition joins amounts. Subtraction takes away or finds the difference.

Count on to add

Start with 7. Add 3: say 8, 9, 10. So 7 + 3 = 10.

Make a ten

8 + 5 = 8 + 2 + 3 = 10 + 3 = 13.

Use a double

6 + 6 = 12, so 6 + 7 is one more: 13.

Think addition to subtract

For 13 - 8, ask: 8 plus what makes 13?

8 + 5 = 13, so 13 - 8 = 5.

A fact family uses the same three numbers

Addition	Subtraction
4 + 6 = 10	10 - 4 = 6
6 + 4 = 10	10 - 6 = 4

Check your answer

Use objects, draw dots, or use the opposite operation.

For 9 - 4 = 5, check that 5 + 4 = 9.

OPP

Time & money

QUICK REFERENCE | Suggested grades 1-3 | Math

Take one step at a time. Label minutes, hours, cents, or dollars.

U.S. coins

Penny	Nickel	Dime	Quarter
1 cent	5 cents	10 cents	25 cents

Count money

Start with the largest coin value and count on.

1 quarter + 2 dimes + 1 nickel = 25 + 10 + 10 + 5 = 50 cents.

100 cents = $1.00. $2.35 means 2 dollars and 35 cents.

Read an analog clock

The short hand tells the hour. The long hand tells minutes.

Each number marks 5 minutes: 1 = 5, 2 = 10, 3 = 15 ... 12 = 0.

At 3:30, the minute hand points to 6; the hour hand is halfway from 3 to 4.

Time facts

60 seconds = 1 minute. 60 minutes = 1 hour. 24 hours = 1 day.

A quarter hour is 15 minutes. A half hour is 30 minutes.

Find elapsed time

From 2:45 to 3:20: 15 minutes to 3:00, then 20 minutes more.

15 + 20 = 35 minutes. Use a timeline to track the jumps.

OPP

Word problems: a calm plan

QUICK REFERENCE | Suggested grades 1-6 | Math

You do not have to solve it all at once. Start with what you know.

1. Read and tell the story

Read once. Say what is happening in your own words.

Circle the question. What are you trying to find?

2. Find the useful information

Label each amount. Cross out information you do not need.

Draw objects, a bar model, a table, or a number line.

3. Choose a plan

Are amounts joining, separating, being compared, or forming equal groups?

Write an equation. Do not choose an operation from one keyword alone.

4. Solve one step at a time

Show your work. Use a chart or a familiar fact if you need one.

5. Check and label

Does your answer fit the story? Check with a drawing or another method.

Write a sentence with the correct unit.

Example

Mia has 3 bags with 4 shells in each. She gives away 2 shells.

3 x 4 = 12 shells. 12 - 2 = 10 shells. Mia has 10 shells left.

OPP

Nouns: name it

QUICK REFERENCE | Suggested grades K-3 | English

A noun names a person, place, thing, or idea.

Find the noun

Person	Place	Thing	Idea
teacher	school	pencil	kindness
friend	park	dog	courage

Common or proper?

A common noun names a general person, place, thing, or idea: city, student.

A proper noun names a specific one: Chicago, Maya. Use a capital letter.

One or more than one

Singular: one cat. Plural: two cats.

Usually add -s: book/books. Often add -es: box/boxes.

Consonant + y: baby/babies. Some change: child/children, mouse/mice.

Show ownership

One dog: the dog's bowl. More than one dog: the dogs' bowls.

Irregular plural: the children's books.

Try it

The teacher carries a book to school.

Nouns: teacher (person), book (thing), school (place).

OPP

Verbs: action & being

QUICK REFERENCE | Suggested grades 1-4 | English

A verb tells what happens or connects the subject to information about it.

Action verbs

A penguin waddles. The class reads. We built a tower.

Waddles, reads, and built tell what someone or something does.

Linking verbs

The soup is warm. The flowers smell sweet.

Is and smell connect the subject to a description.

Helping verbs

She is reading. They have finished. We will go.

Is, have, and will help the main verb.

Past, present, future

Past	Present	Future
Yesterday I walked.	Today I walk.	Tomorrow I will walk.
Yesterday I went.	Today I go.	Tomorrow I will go.

Match subject and verb

One bird sings. Two birds sing.

I am. You are. He/she/it is. We are. They are.

Try it

Lena has packed her bag. Helping verb: has. Main verb: packed.

OPP

Pronouns & clear sentences

QUICK REFERENCE | Suggested grades 1-4 | English

A pronoun can take the place of a noun. Make it clear who or what it means.

Choose a pronoun

Subject: does the action	Object: receives the action
I, you, he, she, it, we, they	me, you, him, her, it, us, them

Subject or object?

Maya and I read. I is part of the subject.

The teacher helped Maya and me. Me is part of the object.

Check by removing the other name: I read. The teacher helped me.

Possessive words show belonging

My/your/his/her/its/our/their come before nouns: our books.

Mine/yours/his/hers/ours/theirs can stand alone: The books are ours.

Its or it's?

Its shows belonging: The bird spread its wings.

It's means it is or it has: It's raining.

Make the meaning clear

Unclear: Sam told Lee that he won. Which person won?

Clear: Sam told Lee, "You won." Or: Sam told Lee, "I won."

OPP

Sentences & punctuation

QUICK REFERENCE | Suggested grades K-3 | English

A complete sentence shares a complete thought.

Build a sentence

Tell who or what (subject). Tell what happens or what is true (predicate).

The little dog / sleeps on the rug.

Begin with a capital letter. End with a punctuation mark.

Choose an ending

Type	Example
Statement: tells something	The dog is asleep.
Question: asks something	Where is the dog?
Exclamation: strong feeling	What a surprise!
Command: tells someone to act	Please close the door.

Commas can separate a list

I packed a book, a snack, and a pencil.

Apostrophes have jobs

Contraction: do not becomes don't.

Ownership: the cat's toy. Do not add an apostrophe just to make a plural.

Read it aloud

Does it make sense? Is the thought finished? Check the first and last marks.
